The Indiana Story
Perspectives from an Interprofessional Educator

Objectives

• Provide an overview of how IPE/IPP initiatives have been started in Indiana
• Discuss the Indiana Action Coalition and activities related to the IOM Future of Nursing Report
• Encourage you to develop and expand IP activities to benefit the nursing profession, the healthcare delivery team and patient care
Dr. Larry Lynn

• Who am and why am I here?

The Problem with Health Care Delivery

It needs retooled!

Why is this retooling necessary?

• 17.1% of Americans have no health insurance
  February 2012 Gallup Poll

• Health care costs have been rising at an alarming rate for nearly 2 decades
  – Cost of health insurance increased by 131% between 1999 and 2009 Kaiser Family Foundation
  – Technology and new medications

• We spend more money on health care than our “peer” countries

• We focus on “fixing” not “preventing”
A Prescription for Healthcare Delivery

Develop a highly trained, collaborative, interprofessional healthcare team focused on patient centered care that is efficient, safe and of excellent quality.

A Prescription for Healthcare Delivery

The Importance of IPE

*Can our graduates who do not value interprofessional working, know little about each other, may never have communicated with each other, haven’t been taught collaboration skills and have no shared clinical experience as students be expected to practice effectively in the emerging healthcare system?*

Madeline Schmitt

Indiana

A leader in interprofessional thought and in shaping the future of nursing
Interprofessional Education
The Foundation for the New Healthcare Delivery Team

- Indiana AHEC Education Committee addresses the need for expanding IPE in the State – 2009
  - Multidisciplinary and multi-institutional involvement
  - Developing IPE awareness and readiness
- The Indiana IPE conference

Interprofessional Education
The Foundation for the New Healthcare Delivery Team

- The Indiana IPE Conference
  - Leaders in the IPE/IPP movement defining IPE and what is being done around the globe
  - Realization that "we can do this" from many conference attendees

The IOM Report:
A Brief Examination of its Importance

High-quality, patient-centered health care for all will require remodeling many aspects of health care system, especially nursing.

The Future of Nursing: Leading Change, Advancing Health

Future of Nursing Leading Change, Advancing Health

High-quality, patient-centered health care for all will require remodeling many aspects of health care system, especially nursing.

Future of Nursing: Leading Change, Advancing Health
The IOM Report: A Brief Examination of its Importance

- Nurses should practice to the full extent of their education and training
- Nurses should achieve higher levels of education and training through an improved education system that promotes seamless academic progression
- Nurses should be full partners, with physicians and other health care professionals, in redesigning health care in the United States
- Effective workforce planning and policy making require better data collection and information infrastructure

The IOM Report: A Brief Examination of its Importance

- Alignment with ACA or other legislation
  - Strengthen the provision of primary care
  - Ensure quality of care
  - Bringing down the cost of healthcare
- The issues facing the nursing profession are problematic for all health care professionals and our patients

Indiana Action Coalition
Indiana Action Coalition

- Formed through a partnership of the Indiana Center for Nursing and the Indiana AHEC
- Executive Committee
  - Kimberly Harper, RN, MS
  - Richard Kiovsky, MD, FAAFP
  - Donna Boland, R.N.
  - Linda Everett, PhD, RN, NEA-BS, FAAN
  - Larry Lynn, MD, FAAP

Indiana Action Coalition

- The coalition must have statewide representation
- There must be multidisciplinary participation
- Coalition activities should be tied to demonstrable outcomes
- What part of the IOM report is most relevant to our state at this time?

Indiana Action Coalition: Organizational Structure
Indiana Action Coalition
General Goals
1. Identify activities to reflect the full scope of nursing practice
2. Facilitate collaborative efforts in transforming care for citizens of Indiana
3. Increase funding to support nurses returning for additional education leading to either an APN role or a doctorate
4. Implement to the fullest extent the minimum nursing data set especially as it relates to nursing supply and demand

Indiana Action Coalition
Nursing Education Committee Goals
1. Develop and implement a plan to insure that an adequate number of appropriately leveled nursing programs are available in the State to meet future health care needs
2. Develop a statewide education plan to move nurses seamlessly across all levels of education from LPN to RN, to BS, to MS, to doctorate

Indiana Action Coalition
Nursing Practice Committee Goals
1. Develop a white paper with APN practice groups related to reimbursement of services and scope of practice issues
2. Grow the number of clinical preceptors especially in rural settings
3. Collaborate with Indiana nursing schools and health care employers in exploring strategies to increase the number of nurses returning for advanced education
Indiana Action Coalition
Patient Safety Committee Goals
1. Develop a regional safety coalition
2. Develop hospital education networks that promote common language on safety

Indiana Action Coalition
IPE/IPP Committee Goals
1. IPE Database
2. Simulation Event

Indiana Statewide IPE Simulation Event
Indiana Statewide IPE Simulation Event

- Held October 26, 2012 at the Indiana University School of Medicine simulation lab
- Participation from around the state
  - 6 universities
  - 22 students
  - 18 faculty members
- Students by discipline
  - Physician Assistant
  - Baccalaureate Nursing
  - Pharmacy
  - Respiratory Therapy
  - Radiology Therapy

Indiana Statewide IPE Simulation Event

- 5 different clinical vignettes
- Random assignment of students to groups
- Brief introduction to the room
- Running the vignette
- Debriefing

Indiana Statewide IPE Simulation Event: An Unofficial Overview

- We are training team members
- Our students quickly adapt
  - Leaders emerge
- Lack of interdisciplinary understanding going into the simulation
- Students are overly critical of their own performance
- Strong desire for more simulation
Summary:
Tips on how to grow

- Multidisciplinary involvement
- Physician champions for the cause
- Education partnerships focusing on IPE
- Set goals relevant to needs
- Small steps will lead to large gains
