Monday Memo – November 26, 2018

People

- Robin Clark was a member of the National Institutes of Health’s Nov. 2 Special Emphasis Scientific Panel on Accelerating the Pace of Drug Abuse Research Using Existing Data.
- Robin Clark was invited to become a Research Affiliate of the Center for Health Economics of Treatment Interventions for Substance Use Disorders, HCV, and HIV (CHERISH), based at Weill Cornell Medical College.

Presentations

- Dan Mullin presented *Measuring the Integration of Primary Care and Behavioral Health Services: A Factor Analysis of the Practice Integration Profile* (Lecture) at the annual meeting of the North American Primary Care Research Group on Nov 12.
- Tina Runyan presented a keynote address at the Nov. 17 Texas Psychological Association annual meeting: *Leveraging the Tend-and-Befriend Response to Manage Cumulative Secondary Stress in Professional Practice*. She also gave a workshop on *Activating the Tend-and-Befriend Response to Manage Cumulative Secondary Stress*.
- In our previous listings of presentations from the Nov. 9-11 FMEC conference in Rye Brook, NY, we left out a presentation by Hugh Silk, presented with faculty from two other institutions: *Medicine and the Fine Arts Community*. Hugh Silk was part of a multidisciplinary panel that presented a webinar hosted by the Massachusetts Dental Society & Massachusetts Medical Society: *Opioid Management for the Dental and Medical Provider*.

Paula Gardiner presented at the Nov. 9-11 Global Pain Clinician Summit sponsored by the Academy of Integrative Pain Management:
- *Prevalence of Sleep Disturbances in Children with Chronic Pain* (abstract)
- *Using OWL, an eHealth Tool, to Reduce Chronic Pain in Patients with Health Disparities* (abstract)
- *Innovative Models of Chronic Pain Management* (presentation)

Paula Gardiner presented at the Nov. 16 IM Network Forum, 2018 sponsored by the Osher Center for Integrative Medicine at Harvard Medical School:
• Using an Innovative mHealth Tool to Reduce Chronic Pain in Patients with Health Disparities
• Comparisons of IMGV and Clinical Visits in Improving the Application of Adaptive Stress Management Techniques among Patients with Chronic Pain and Depression
• Effects of Integrative Approaches on Quality of Life Among Pediatric Patients with Chronic Pain at an Interdisciplinary Pediatric Pain Clinic

Publications
